Dear Mr. Iani:

Enclosed please find one copy each of the revised Pond 8E, Phase IV Ponds, and Pond 15S closure plans for the FMC facility. The revised Pond 8E, Phase IV Ponds, and Pond 15S closure plans supersede all previous versions of the subject closure plans.

The Pond 8E closure plan has been revised to incorporate FMC's responses to EPA comments that were submitted to EPA on April 28, 1999; the initial fill and temporary cap construction activities conducted in 1999, settlement monitoring since 1999, updated technical specifications, final cap construction drawings and the plant closure. The Phase IV Ponds and Pond 15S closure plans have been revised to incorporate FMC's responses to EPA comments that were submitted to EPA on April 12, 1999, the initial fill and temporary cap construction activities conducted in 1999, settlement monitoring since 1999, updated technical specifications, final cap construction drawings and the plant closure.

Please feel free to contact me at (208) 236-8658 should you have questions regarding this information.
